

BRIGHT GREEN ALL YEAR-ROUND.

View Kikuyu handles all kinds of wear and tear – whether it’s from large dogs, active kids or regular backyard parties – and looks good while doing it.

View Kikuyu has a strong root system that grows vigorously. The result is a lawn that establishes quickly, is incredibly wear tolerant and has an excellent recovery rate.

View Kikuyu is an efficient water user and highly drought tolerant. It’s an ideal choice for areas with low rainfall or council water restrictions.

View Kikuyu is highly drought tolerant once established – but, like all plants, needs water. Requirements will vary depending on environmental factors. Be aware of a drying climate and water your lawn accordingly.

BEFORE YOU ORDER CALCULATE HOW MUCH TURF YOU WILL NEED

1. On a piece of paper sketch out the areas to be turfed.
2. Break-up your sketch into basic shapes e.g. squares, rectangles, triangles and circles.
3. Measure each shape and calculate the square metres (m²) of each area.
4. Add all area's together for the total area (m²) you need to order.
5. **ORDER EXTRA!** For basic areas like a rectangle or square, order 5% extra. For more complex irregular areas, order 10% extra. All things considered, It's highly recommended to have a bit more turf than you think you need, than to run short.
